

Pradosh Chand

FRONTEND PRODUCT ENGINEER (REACT | NEXT.JS | TYPESCRIPT)

India (Open to Remote)

☎ (+91) 9937417411 | ✉ chandpradosh7@gmail.com | 🗣 Naseeb7 | 📺 pradosh-chand | 🌐 pradoshchand.dev

Summary

Frontend Product Engineer specializing in building production web, mobile, and backend applications using React, Next.js, TypeScript, and Node.js. Experienced owning product development across web, mobile, and backend systems, delivering scalable solutions from architecture through production in fast-paced startup environments. Strong foundation in frontend architecture, product ownership, production engineering, and cross-functional collaboration to build reliable, user-centric software. Comfortable working in remote-first teams, collaborating asynchronously across time zones, and driving projects independently from concept to deployment.

Professional Experience

Hexadecimal Software Pvt Ltd

Noida, India

SOFTWARE DEVELOPER (PROMOTED TO TEAM LEAD)

Sept 2023 - Jul 2025

- Progressively assumed ownership of the company's React web application, React Native mobile application, and Node.js backend, delivering customer-facing features from technical design through production deployment as engineering responsibilities expanded.
- Re-architected the React Native application by redesigning navigation, application hierarchy, and code organization, improving maintainability and enabling the product to scale with evolving business requirements.
- Architected reusable backend services supporting authentication, property search, AI-assisted content generation, and dynamic workflows.
- Engineered a cross-platform URL parsing framework enabling seamless deep linking between web and mobile applications.
- Delivered business-critical capabilities including payment integrations (Razorpay), save-and-resume workflows, onboarding experiences, real-time application features, and AI-assisted property description generation using OpenAI APIs.
- Owned production engineering across web and mobile, managing production deployments, Android and iOS releases, emergency hotfixes, incident resolution, and application stability in live environments.
- Collaborated closely with product, design, QA, and leadership while mentoring interns, supporting technical knowledge sharing, and earning Employee of the Month within three months before being promoted to Team Lead within eight months.

Selected Engineering Projects

Gatsby Blog Platform

Hexadecimal Software Pvt. Ltd.

PROFESSIONAL PROJECT

- Designed and built a Gatsby-powered publishing platform from scratch featuring a custom markdown editor, autosave functionality, Git-based publishing workflow, and automated deployment pipeline.
- Optimized SEO, static site generation, caching, and build performance, contributing 70% of the company's website traffic through improved organic discoverability.

Nakama Authoritative Tic Tac Toe

Server-Authoritative Multiplayer System

PERSONAL PROJECT

Live Demo

- Built a server-authoritative multiplayer platform using Nakama, implementing gameplay validation, matchmaking, realtime synchronization, reconnect recovery, persistent match history, and leaderboard progression.
- Engineered a production-ready backend using Nakama, Docker, Railway, and WebSockets to deliver reliable low-latency multiplayer gameplay across distributed clients.

iSee

Realtime Video Communication Platform

PERSONAL PROJECT

Live Demo

- Developed a peer-to-peer video communication platform supporting realtime video calling, messaging, room management, and signaling using WebRTC and Socket.io.
- Designed resilient realtime communication workflows for connection management, session handling, and synchronized user experiences across participants.

Technical Skills

Frontend

React.js, Next.js, TypeScript, JavaScript, React Native, Redux, Tailwind CSS, Material UI

Backend

Node.js, Express.js, REST APIs, GraphQL, Apollo Server

Databases & Caching

MongoDB, Redis

Realtime

WebSockets, Socket.io, WebRTC

Cloud & Dev Tools

AWS (EC2, S3), Firebase, Vercel, Git, GitHub, Docker, Postman

Payments & Monitoring

Stripe, PayPal, Razorpay, Google Analytics (GA4), Sentry

Education

Manipal University Jaipur

BACHELOR OF COMPUTER APPLICATIONS (ONLINE)

2025 – Present

The Pharmaceutical College, Barpali

DIPLOMA IN PHARMACY

2019 – 2022
